Mr. Alan Ewing
District Clerk
Union of Endicott Central School District
1401 Broad Street
Endicott, NY 13760

Dear Mr. Ewing:

This letter is to request to visit the Jennifer Snapp School, located on Main Street, Endicott, New York for the purpose of conducting a site inspection. This letter provides a brief background concerning our request for access.

Malcolm Pirnie, Inc. (MPI) is under contract with the Environmental Protection Agency (U.S. EPA) to provide pre-remedial services which include this site inspection. These investigations are conducted in accordance with the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and the Superfund Amendments and Reauthorization Act (SARA) programs. This site is included on the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) under the name Old Village of Endicott Dump Site, EPA I.D. Number NYD980508238.

A Site Inspection is a two-step process consisting of a site reconnaissance and a sampling inspection. During the site reconnaissance we will evaluate the site as a whole; particularly, assessing potential sample locations and screening the site for health and safety considerations. Photographs will be taken throughout the reconnaissance. Personal protective clothing and air monitoring equipment will be used, as deemed necessary, per Occupational Safety and Health Administration (OSHA) regulations and MPI Health and Safety procedures.

The need to conduct a sampling inspection will be evaluated upon completion of the site reconnaissance. If we determine that a sampling investigation will definitely take place, sampling could include the collection of water and/or soil samples. Please note that after the site reconnaissance it may be determined that a follow-up sampling inspection is not needed and will not be conducted. We would like to conduct the site reconnaissance as soon as possible.

The Site Inspection activities are to be performed in accordance with the direction of the U.S. EPA under Contract Number 68-W9-0051.

If you have any questions concerning the scheduling of these efforts or other aspects of these activities, please contact David Kahlenberg at (609)860-0100.

Very truly yours,

MALCOLM PIRNIE, INC.
